

# CREATIVE FILMS

The Decorative Window Film Collection

By MEP Films

The examples provided in this booklet offer inspiration for the various uses of window film in many decorative and design applications. The versatility of the window films are shown in this booklet are not standard designs, simply in-house designs to show what is possible and of course, are not limited to these examples.

### **DID YOU KNOW?**

Wallpaper custom designs for walls as well as windows are part of the in-house service. Do not hesitate to ask or more information about this service.

For any particular design or idea, the design team can help bring it to life!

Call one of MEP's representatives to discuss how decorative window film can help create a unique design solution.

### **ABOUT MEP FILMS**

Australia's largest window film organisation, supplying and/or installing in excess of 2 million square metres of window film each year. With the head office in Melbourne, there are operations in all states of Australia and New Zealand. MEP Films are the most respected brand of high performance window films, manufactured by Eastman's Performance Films, the world's largest manufacturer of window film. Eastman's Performance Films is recognised for state-of-the-art research and technology, manufacturing excellence and capacity, comprehensive global distribution, and unsurpassed levels of customer service.

MEP Films, offering a range of solutions:

- Decorative Film – Giving homes or offices a facelift with the extensive range of designs
- Solar Film – Improves window performance
- Night Series Film – Cuts down internal reflections
- Anti-graffiti Film – Protects against vandals & graffiti
- Safety & Security Film – Provides a powerful barrier to help prevent break-ins
- Enerlogic Film – Performs 5 times better than standard solar films
- Intelligence Film – Protects against electronic spying

# FEATURED PROJECTS

Some Examples From Recent Jobs

By MEP Films

## Adelaide GP Super Clinic (1 of 3)

---

This design was created for the Adelaide Cancer Clinic, to help brighten up the hallways of the hospital for the children.

This concept is to print this design onto Visual Magentics which is essentially a large magnet attached to the wall. It allows various layers to be added in different parts of the design and can be moved around as required to acheive the desired result.

For example, all of the birds and butterflies would be seperate magnets that are removable on the fixed background.

### **Product Used:**

Visual Magnetics Graphic System

## Adelaide GP Super Clinic (2 of 3)

This design was created for the Adelaide Cancer Clinic, to help brighten up the hallways of the hospital for the children.

This concept is to print this design onto Visual Magentics which is essentially a large magnet attached to the wall. It allows various layers to be added in different parts of the design and can be moved around as required to acheive the desired result.

For example, all of the fish would be seperate magnets that are removable on the fixed background.

### Product Used:

# Melbourne Zoo Options

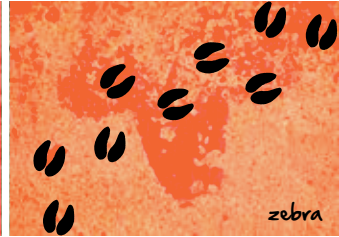

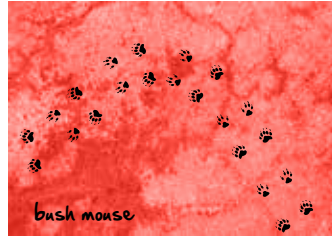

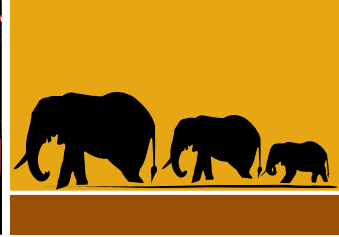

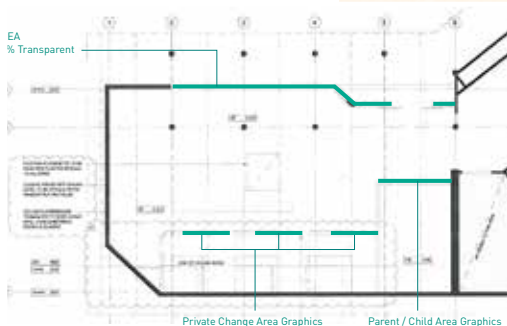

This artwork was designed for the Melbourne Zoo, to help brighten up the hallways and add some creative flare to the building.

A film called MD3 or MD5 is used for this sort of application. It allows for large impactful wrapped images around the walls and windows. Mostly used for retail spaces and offices, this product creates a stunning effect that leaves a lasting impression on it's viewers.

## Product Used:

MD3: for a 2-3 year application

MD5: for a 5 year application

# Australian Treasury Building

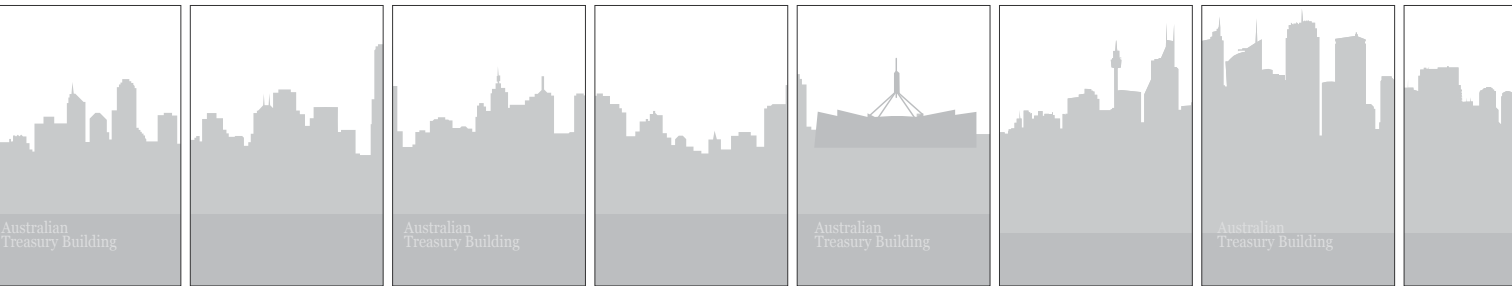

---

This artwork was designed for the Australian Treasury Building to create some impact when entering the building.

M4 Frost Window Film was used on the windows, giving the building a strong design with a clean, corporate feel to it.

## Product Used:

M4 Frost Window Film

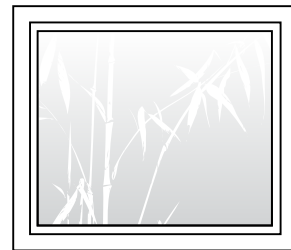

## Private Residence, Northcote

---

This artwork requested by a residential client, was designed to be simple yet effective. M4 Frost Window Film was used to recreate bamboo trees for a peaceful and elegant theme.

### Product Used:

M4 Frost Window Film

## Decals and Manifestations

---

This design was created for privacy purposes, while incorporating some of the company's branding to strengthen their corporate identity.

It's a subtle design that's both creative and corporate.

Full photo quality images can also be digitally printed directly onto frosted, opaque or clear films.

## Decals and Manifestations

---

This design was created for privacy purposes but still has a sense of style to it, keeping the business and it's surroundings modern.

Full photo quality images can also be digitally printed directly onto frosted, opaque or clear films.
